Golden Triangle Storage, LLC

Docket No. CP23-542-000

NOTICE OF APPLICATION AND ESTABLISHING INTERVENTION DEADLINE

(September 20, 2023)

Take notice that on September 12, 2023, Golden Triangle Storage, LLC (GTS), 919 Milam Street, Suite 2425, Houston, Texas 77002, filed an application under section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization for its Expansion Project (Project). The Project consists of expanding its existing natural gas storage facility in Jefferson County, Texas, through the construction and operation of two new salt dome storage caverns, additional compression, and other appurtenant facilities. The Project will meet documented market demand for increased storage capacity, enhance operational capabilities at the existing storage facilities, and ensure that GTS will be able to continue to offer safe, reliable storage services for both existing and new customers. Further, GTS requests reaffirmation of its market-based rate authority and related authorizations and waivers, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page ([www.ferc.gov](http://www.ferc.gov)) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room. For assistance, contact the Federal Energy Regulatory Commission at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or call toll-free, (886) 208-3676 or TTY (202) 502-8659.

Any questions regarding the proposed project should be directed to James F. Bowe, Jr., King & Spalding LLP, 1700 Pennsylvania Avenue, Suite 900, Washington, DC 20006 by phone at (202) 626-9601, or by email at [jbowe@kslaw.com](mailto:jbowe@kslaw.com).

Pursuant to Section 157.9 of the Commission's Rules of Practice and Procedure,<sup>1</sup> within 90 days of this Notice the Commission staff will either: complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

### **WATER QUALITY CERTIFICATION**

GTS's application states that a water quality certificate under section 401 of the Clean Water Act is required for the project from the Texas Commission on Environmental Quality (TCEQ) and the Railroad Commission of Texas (RRC). The request for certification must be submitted to the certifying agency and to the Commission concurrently. Proof of the certifying agency's receipt date must be filed no later than five (5) days after the request is submitted to the certifying agency.

### **PUBLIC PARTICIPATION**

There are three ways to become involved in the Commission's review of this project: you can file comments on the project, you can protest the filing, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on **October 11, 2023**. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).
